- 2007 – TRAINING SUPERVISOR WITH ADELAIDE TO OUTBACK GP
TRAINING
- 2009 – SUPERVISOR LIASON OFFICER WITH AOGP TRAINING

I have been in general practice for close to thirty years now. I have a good understanding of general practice, am passionate about education in general practice and the future of general practice. I would like to see the continuation and expansion of medical education in general practice and ensure the future of the general practice model of primary health care. I have been involved for some years now in the team approach in primary care and have worked closely with allied health providers in my team, in the multidisciplinary medical practice at Seaton of which I am the principal. I have been involved at board level with a number of organizations as mentioned above and have had training in governance and now some experience in this area. I feel that I can bring in this experience with me and have thus accepted nomination for the board of AGPN. I want to work hard to ensure the survival of general practice in Australia and to help make this profession the primary aspiration of young graduates. I have an interest in the local sporting community and have been club doctor for Western Strikers, a super league club for the last 9 years.
